

Course Title : Self Paced ZP2 Installation Training

Training Institute : G2 Fire (www.g2fire.co.za)

Format : Online Self Paced
- Optional Practical Assessment

Venue : Online with Practical at:
• G2, Kya Sand, Johannesburg

Description

This is a SAQCC certified course which when passed can be used towards the 'Commissioner' accreditation of the SAQCC. The course covers both the theory and practical aspects of wiring, installing and basic programming of the Ziton ZP2 Addressable Fire Panel. This is a self paced on-line course where the candidate can attend a practical assessment to gain their SAQCC Supplier Training 2 certification.

Course Topics

- Loop devices and their wiring
- Addressing
- IO Modules
- Testing and fault finding
- Sounder and external sounders
- Isolators
- The ZP2 panel interface and programming on the panel
- Introduction to networking
- System Builder Software
- ZP2 Addressable Wireless

Price : FREE
- Optional Practical Assessment R350 incl. VAT (required for certificate for SAQCC)

External Accreditation : SAQCC Supplier Training 2
